## TRAINING COURSES CONDUCTED

### OSHA 1910.120 HAZWOPER

### HAZARDOUS WASTE

### OPERATIONS &

### EMERGENCY RESPONSE

Since **1993** **AEH&S** has been accredited by the US Environmental Protection Agency to conduct course 165.5 Hazardous Materials Incident Response Operations and course **165.15 Emergency Response To Hazardous Materials Incidents.** Because **AEH&S** is accredited, all training topics and presentations have received prior approval by the USEPA's Environmental Response Training Program. In addition, **AEH&S** frequently receives **fresh, updated educational material** from the USEPA and OSHA that is provided to the students. Also, a state of the art **training manual** created by the USEPA, OSHA, NIOSH, and the US Coast Guard is provided to each student attending the initial class. State of the art Safety Equipment & Air Sampling Instrumentation, Fresh Presentation Material, Testing and more are used for successfully teaching your student worker. Each student, upon the successful completion of these courses, will receive a Training Certificate.
