**Professional Services: 40 Hour Hazardous Waste Operations and Emergency Response (HAZWOPER) Training:** *In accordance with OSHA 1910.120, paragraph e.*

Please accept this letter as **Applied Environmental Health & Safety, Inc. (AEH&S)** announcement that the above referenced **Hazardous Waste Operations and Emergency Response (HAZWOPER) Training: In accordance with OSHA 1910.120, paragraph e, will be conducted in Orlando during the week of 6.14 - 6.18.2010.**

This class will be conducted by Thomas O. Murray, CIH. Tom and his staff have been supporting one (1) of the 17 stages set up along the Gulf States for this environmental response. He will be on furlough from the Panama City operations and can speak first hand on the events that have unfolded to date at that location.

Included in the course will be an update on current regulations and a review of all pertinent subject matters outlined in OSHA 1910.120. Tom will be concentrating on Oil Spill response, boom deployment teams, Site Specific HASP, Site Safety Operations, Incident Command, BP Safety, Tar Balls, decontamination and much more.

Each student successfully completing the 40-hour *HAZWOPER* class will be provided a Certificate of Attendance.

- **If you bring your safety equipment Tom will conduct hands on donning & Doffing with your employees for a more effective learning experience. If not, Tom will have a selection of generic safety equipment for demonstration purposes.**
- **Also, if you bring your own air testing instrumentation tom will conduct hands on with your instrumentation for a more effective learning experience. If not, Tom will have a selection of generic air testing instrumentation for demonstration purposes.**
- **Also, if you provide the names and number of students attending this class prior to the scheduled date AEH&S will be prepared to present the certificates upon the successful completion of the final examination.**

**Applied Environmental Health & Safety, Inc.**

- Provide all instructors, teaching materials and additional instrumentation as applicable.
- Tailor the course curriculum specific to the Deepwater Horizon incident (MC 252).

- Provide Certificates of Attendance for each employee upon successful completion of the course and full payment of the student.

**TRAINING DATES AND COSTS**

- This *40 Hour Hazardous Waste Operations and Emergency Response (HAZWOPER) Training* will be conducted in Orlando, Florida. Please call the **AEH&S office at (407) 888.2285 for class location, and other information.**
- The cost for the 24 Hour training class will be \$ 695.00 per person. Multi student discounts are available.

**Applied Environmental Health & Safety, Inc.** is honored to provide this training to the environmental response community and other interested parties. Should you have any questions regarding this training or any of our other environmental Health & Safety services, please contact the office at (407) 888-2285.

Sincerely,

**Applied Environmental Health & Safety, Inc.**
